SUMMARY

A Full-Stack Developer with 2+ years of professional experience building modern web and mobile applications across the full stack — from responsive front-end interfaces to back-end APIs, databases, and cloud deployments. Passionate about integrating AI capabilities into real-world applications and continuously expanding technical expertise. Committed to writing clean, well-documented code that delivers exceptional user experiences.

EXPERIENCE

PT. SEWIWI INDONESIA – Jakarta, Indonesia

Internship (2017 – 3 Bulan)

- Configured networks using Mikrotik.

UNIVERSITAS GUNADARMA – Depok, Indonesia

Psychology Laboratory Programmer (2020 - 2022)

- Maintained laboratory environment such as computers, networks, CCTV.
- Responsible for creating online classes and managing student grades.
- Designed certificates and letters of recommendation for Assistants and Programmers.

PT. SEMESTA ARUS TEKNOLOGI – Jakarta, Indonesia

Front End Developer (Jan, 2023 – Jan, 2024)

- Developed projects for government agencies.
- Implemented File Extraction feature to extract content from a file.
- Developed Tracking Gmaps Location feature based on Phone Number.
- Created Role Management for specified feature access.
- Implemented Export File pdf and excel features.
- Created Chart Diagram based on available data.

PT. BERCA HARDAYAPERKASA– Jakarta, Indonesia

Front End Developer (July, 2024 – Jan, 2026)

- Implemented AI models into the front end via REST API and direct integrations.
- Developed UI using Next.js and SvelteKit.
- Built complex applications integrating AI technologies to enhance user experience.

Full Stack Developer (Jan, 2026 – Present)

- Build and maintain REST APIs using Python & FastAPI.
- Design and manage databases with PostgreSQL and MySQL.
- Integrate AI capabilities using OpenAI API, CrewAI, and Prompt Engineering.
- Deploy and manage applications on AWS EC2 with PM2 and Docker.
- Implement OCR for automated data extraction from images and documents.
- Develop cross-platform mobile apps using Flutter.
- Continue building front-end interfaces with React, Next.js, and SvelteKit.

EDUCATION

SMK AL-HASRA (2015 - 2017)

Computer and Network Engineering

UNIVERSITAS GUNADARMA (2018 - 2022)

Bachelor's Degree in Computer System - GPA 3.30

PROJECTS

• Mini Firefighter Robot (Iot) • Forum-app Using React JS • Next JS With Contentful (CMS) • E-commerce Using Sanity Stripe React JS	• Notes-app-react Using Dicoding API • Spotify-clone-app Using React JS • Personal-notes-app Using React JS • Responsive Web themed Open AI using React JS
• Chat Bot App using Sveltekit • NeuralPath • Image Classification Using CNN • RAG-PDF-QA-APP • Visual AI Learning	• Design UI Using Figma • CrewAI Market Analysis • Agentic OpenAI Get Weather • Advanced Prompting Anime Assistant

CERTIFICATIONS

• Teknisi Muda Jaringan Komputer (BNSP) • Mikrotik Certified Network Associate (Mikrotik) • Menjadi Front-End Web Developer Expert (Dicoding) • Menjadi React Web Developer Expert (Dicoding) • Belajar Membuat Front-End Web untuk Pemula (Dicoding) • Belajar Fundamental Front-End Web Development (Dicoding) • Svelte JS (Udemy)	• Cloud Practitioner Essentials (Dicoding) • Responsive Web Design (FreeCodeCamp) • CSS (HackerRank) • JavaScript Basic (HackerRank) • React Basic (HackerRank) • Belajar Membuat Aplikasi Back-End untuk pemula (Dicoding) • Belajar Membuat Aplikasi Web dengan React (Dicoding) • Belajar Dasar Pemrograman Javascript (Dicoding) • Menjadi Node.js Application Developer
